

## High power LED wall washer specification

Item : MXQ-36W(12\*3W)

Voltage : AC220V

Waterproof : IP65

Lifespan : ≥50000H

Projecting distance : 1~30m

Lense : high light transmission  
toughened glass

Fixture : Aluminum alloy

Angle : 110degree

Viewing angle : 15°/30°/45°/60°

Warranty: 1 year

<b><u>Model : MXQ-36W(12*3W)</u></b>				
Item	Dimension	power	voltage	Light color
LED wall washer	1000*72*66mm	12*3W	AC220V	RGB、 DMX512 control

### product characteristics:

- 1) Aluminium alloy housing, anodized oxidation, nice appearance and good heat dissipation. Also durable, abrasion-proof and easy installment.
- 2) PMMA optical lense can reach 98% light transmittance, and the viewing angle is optional for 15°, 30°, 45° and 60°.
- 3) Toughened glass with 4mm thickness is durable and has good light transmittance.

---

4) The silicon inside the fixture can effectively transfer the heat of LED to the surface of fixture, thus the light has less light depreciation and long life span. Also the silicon seal guarantees the good waterproof of IP65.

5) Application for the route decoration of landscape outline, bridge, square, park and so on. Also it's preferred to enhance the lighting atmosphere of entertainment places, passage and indoor.
